

## Advantages of diagnostic test

- 1) Diagnostic test is relatively cheap and quick.
- 2) Helps in knowing the student's skills and knowledge.
- 3) Helps in identifying behavioural and environmental factors and
- 4) Selection of interventions and factors most likely to result in behaviour change.
- 5) Improves Teaching.

## Disadvantages of diagnostic test

- 1) Diagnostic tests can cause anxiety in students
- 2) The results of these tests may be incorrect. These may not be true assessments
- 3) Considerable expertise and experience required for accurate interpretation.
